

Drop off Surveys

All Stages

Oct-Dec 2024

Introduction

Research Objectives

- To understand the reasons why consumers are stuck/ reasons for drop off at the different stages on MoneyView app (NACH, KYC, Form 3&4, Plan Selector and Personal information).
- To derive actionable insights for reducing drop-offs and enhancing the overall customer experience.

Target group / Sample size

Those who did not proceed/ dropped off at different stages on MoneyView app-

- Personal information- 346
- Plan Selector- 689
- Form 3&4- 528
- KYC- 378
- NACH- 690

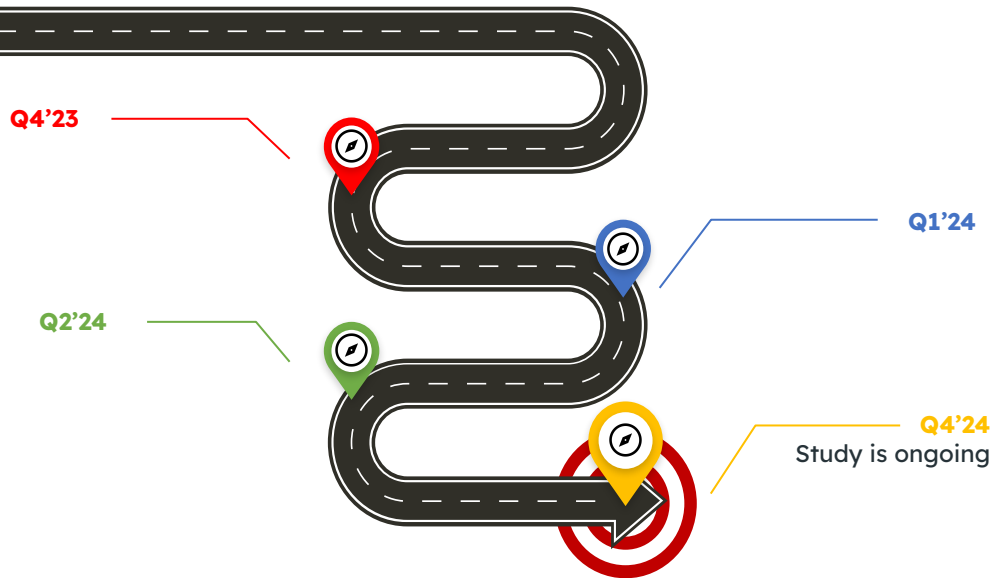

Methodology

1. **Online Surveys:** Captured reasons for drop-offs from users at each stage.
2. **Qualitative Interviews:** Conducted in-depth interviews with a few survey respondents for deeper insights.

All stages

Progress and Focus

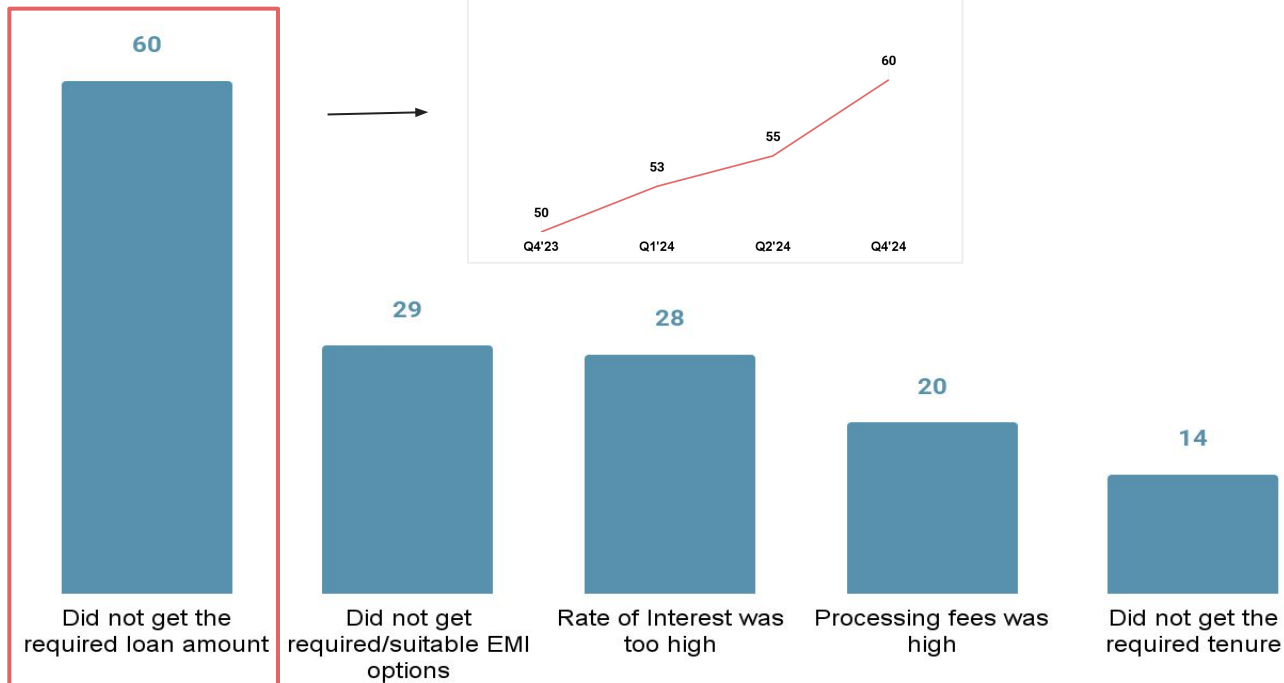

For Q4'24, our focus is on:

- Assessing whether users continue to **encounter issues despite the changes made to the flow.**
- Determining whether users are **noticing and engaging with the new updates.**
- Identifying any **new challenges or issues** faced by users.

Plan Selector Drop Off survey findings

Oct-Dec'24

Factors consumers did not like in the loan offer

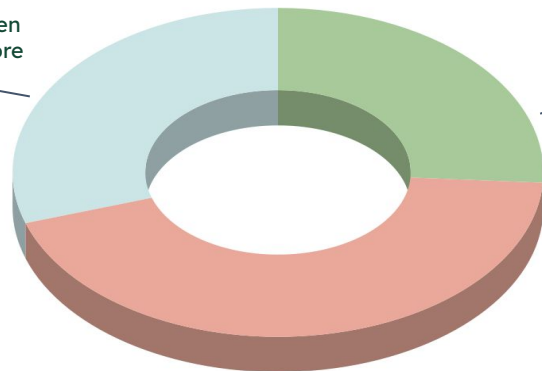

Base - Q4'24 (689)

Satisfaction with the numbers of offer options given

Were you satisfied by the number of offers/options shown to you while selecting the offer?

Somewhat, it would have been better if there were a few more options (44%)

Yes, there were sufficient number of options (26%)

No, it was not sufficient (30%)

Overall (689)

Plan Selector

What additional options or features would help you better understand and select the right offer for you?

Among 689 consumers, only **55% noticed** the "See 3 more" button, while 18% did not, and 26% were unsure about it

Qualitative survey findings

The offered loan amount was less - Consumer required 1 lakh but got an offer for only 10k

Issue with ROI/PF/Tenure -

Tenure - Consumers are not noticing the "**See 3 more options**" feature for additional tenure choices.

PF - A processing fee of approximately ₹900 was charged at the time of payment. The user felt that no processing fee should be applied, as other apps do not impose such charges.

ROI - MV charges high interest rates, whereas my expectation is that the maximum I can accept is 15%.

Did not notice “See 3 more options”

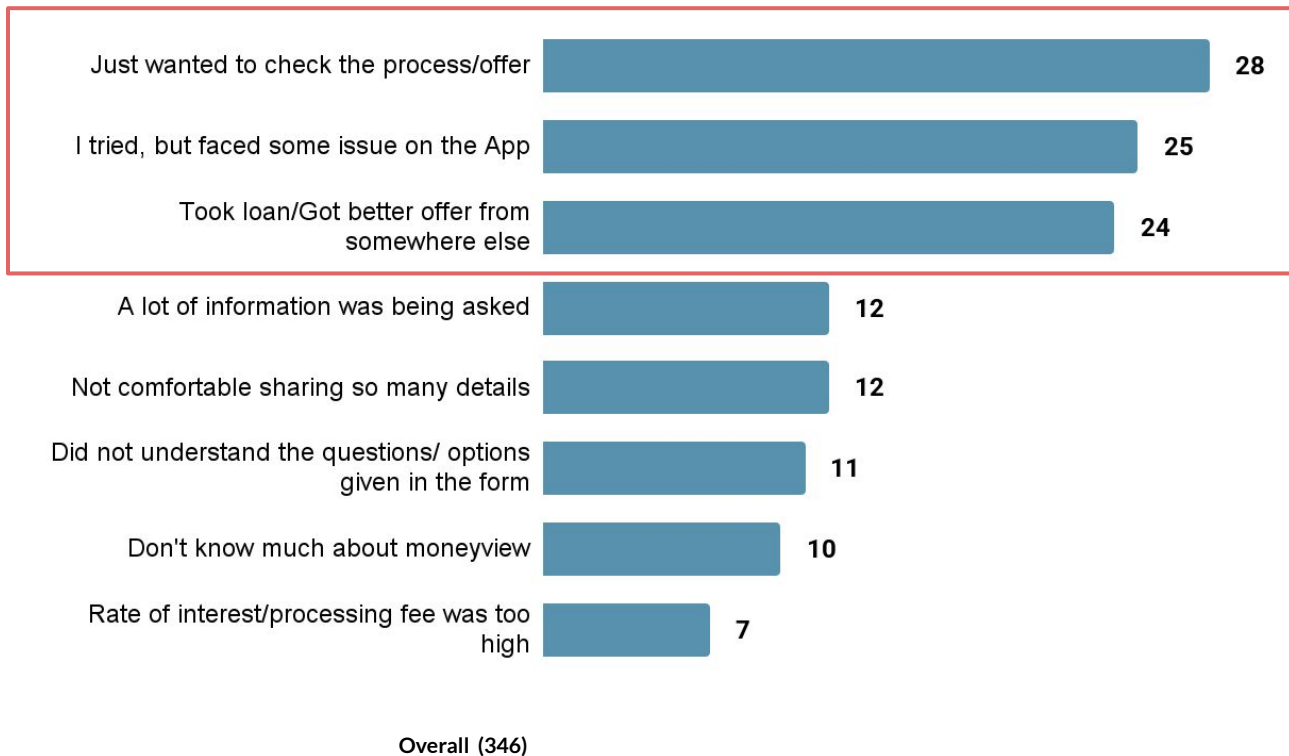

Tenure - Consumers are not noticing the “See 3 more options” feature for additional tenure choices.

Personal Information Drop Off survey findings

Oct-Dec'24

Reasons for not completing loan application

Issue/concerns faced while filling personal Information

Top issues faced while filling personal information were:

- Faced issues related to monthly income calculations (29%)
 - **Do not have fixed monthly income**
 - **Faced difficulty calculating monthly income**
- Confused as I am salaried but also have an additional source of income (17%)
- Did not want to continue (14%)

Among these, around **57%** of these users have an educational qualification **below graduation**. This highlights a few possible indications:

- Users **not familiar with income categorization/ financial terms**.
- Users might **struggle to combine and report income from multiple sources** clearly.

The image shows a mobile application interface for a form titled "Tell us about yourself". The form is designed to collect basic details from a user. It includes the following sections and fields:

- Header:** A back arrow and a help icon (?) are at the top.
- Title:** "Tell us about yourself" in bold.
- Subtitle:** "Provide a few basic details".
- First name:** A text input field containing "Naman". Below it, the text "As per PAN card" is displayed.
- Last name:** A text input field containing "Mishra". Below it, the text "As per PAN card" is displayed.
- Education:** A dropdown menu showing "B.Com" with a downward arrow.
- Preferred loan amount:** A text input field containing "₹2,50,000".
- Your employment type:** Two radio button options: "Salaried" (which is selected) and "Self employed".
- Monthly income:** A text input field containing "₹24,999".
- How do you get your salary?:** Three radio button options: "Online" (which is selected), "Cheque", and "Cash".

Qualitative survey findings

PAN provided already in use - After entering all details in personal information stage, the loan application shows an error: "PAN provided already in use."

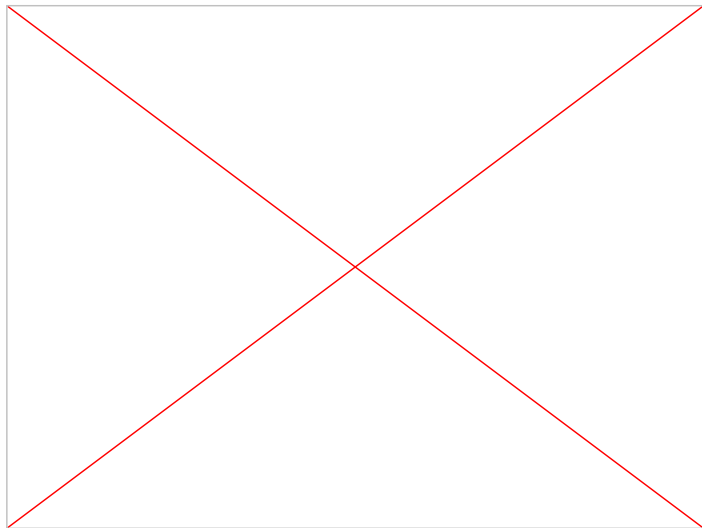

Confusion in monthly income - Difficulty calculating monthly income as user doesn't have a fixed monthly income.

OTP and Application Continuation Issue - The user did not receive any OTP initially. Later, when he tried to continue, the "Continue Loan Application" option was not visible on the super home screen.

Customer Issues

OTP and Application Continuation Issue - The user did not receive any OTP. Later, when he tried to continue, the "Continue Loan Application" option was not visible on the super home screen.

Qualitative survey findings

Customer Issues

Industry type not clear- Users were not able to understand the industry type. Some users couldn't even understand the meaning of industry type due to language barrier and being less educated.

Self employed chosen instead of salaried - Consumer was facing issues in understanding the options in business details. Upon having a conversation with him, we realized that he is a salaried user but chose self employed option due to lack of understanding.

Loan application screen not visible after industry type selection - The user mistakenly selected the wrong industry type (Vegetable store instead of a Kirana store), leading to application rejection. He is not sure of the rejection reason or when he can reapply, as the loan option is no longer visible.

Loan application screen is not displaying

Loan application screen not visible after industry type selection - The user mistakenly selected the wrong industry type, leading to application rejection. He is not sure of the rejection reason or when he can reapply, as the loan option is no longer visible.

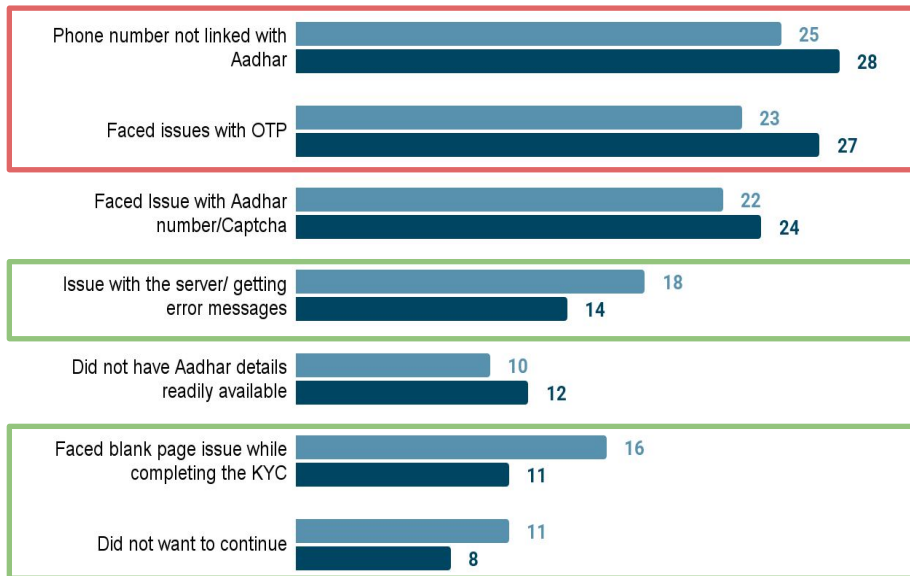

Industry type not clear- Users were not able to understand the industry type. Some users couldn't even understand the meaning of industry type due to language barrier and being less educated.

KYC Drop Off survey findings

Oct-Dec'24

Issues faced while verifying KYC via Paperless and Digi Locker

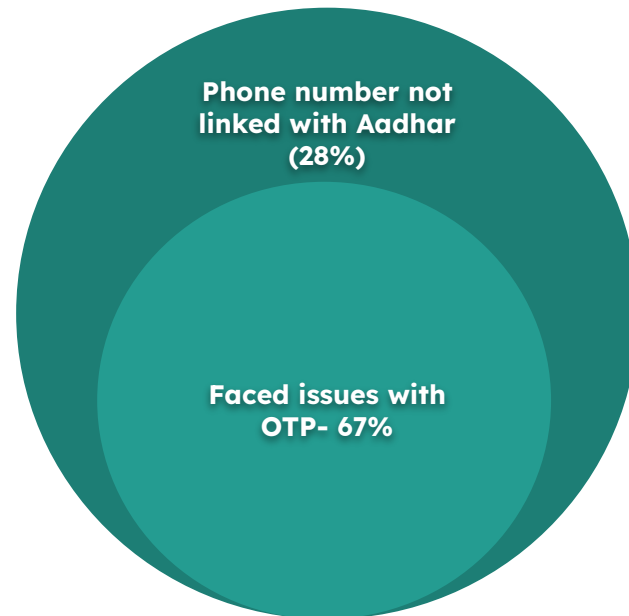

What issues did you face while verifying your KYC via Paperless (e-KYC)/ Aadhar?

■ Q2'24 ■ Q4'24

Base - Q2'24 (322)

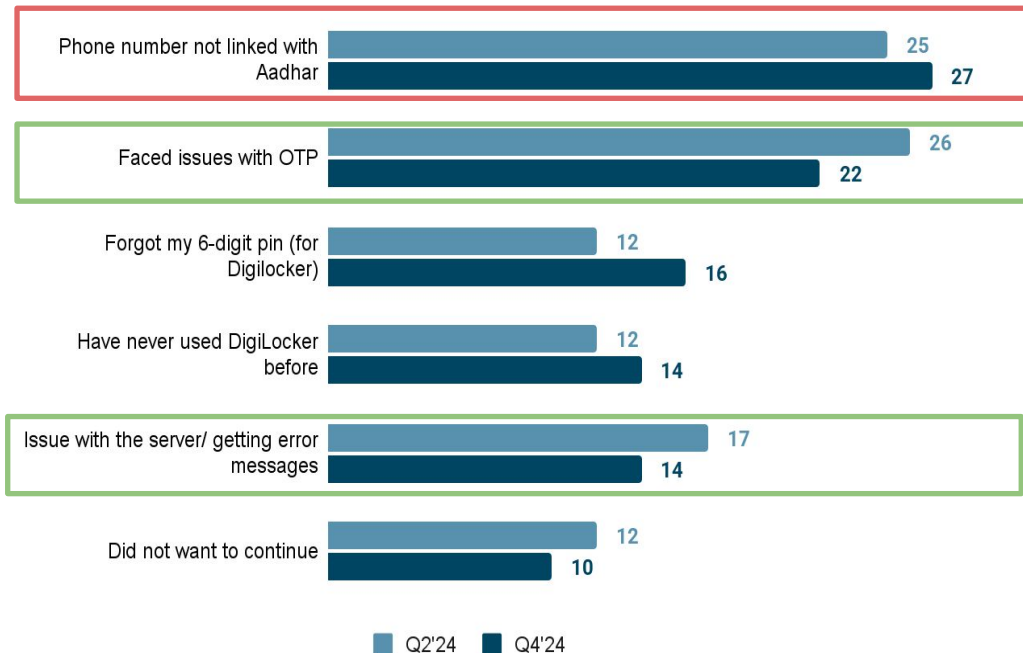

Base - Q4'24 (265)

OTP Issues includes **Aadhar not linked to mobile no., changed mobile no., OTP not received, delayed OTP**, etc.

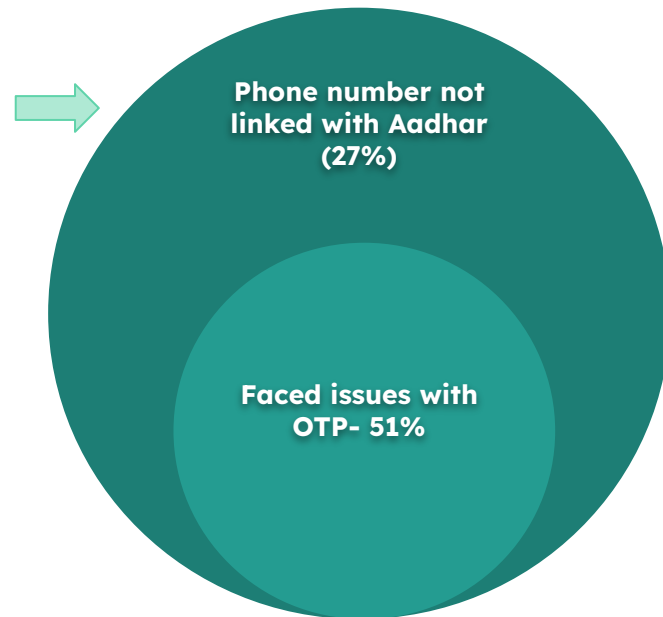

Issues faced while verifying KYC via Paperless and Digi Locker

What issues did you face while verifying your KYC via Digilocker?

Base - Q2'24 (225)

Base - Q4'24 (263)

OTP Issues includes **Aadhar not linked to mobile no., changed mobile no., OTP not received, delayed OTP**, etc.

Issues	Digilocker	Paperless	Remarks
Phone number not linked with Aadhaar	25% → 27%	25% → 28%	Consistent challenge across both processes, with no improvement in Q4'24.
Faced issues with OTP	26% → 22%	23% → 27%	Improvement in DigiLocker but a rise in Paperless KYC , reflecting different platform capabilities.
Did not want to continue	12% → 10%	11% → 8%	Both show improvement , indicating greater user willingness to complete the process.

Issues	Digilocker	Paperless	Remarks
Faced issue with Aadhaar number/Captcha	-	22% → 24%	It reflects user-input challenges and system issues .
Faced blank page issue	-	16% → 11%	Unique to Paperless KYC, showing significant improvement .
Forgot my 6-digit PIN (for DigiLocker)	12% → 16%	-	Reflecting the need for better user education or PIN recovery options .

Qualitative survey findings

Faced issue with Captcha - Captcha was requested but not displayed on the screen and it is failed to load.

OTP not received- Consumer was not receiving the OTP even after Aadhar is linked to the phone number

Aadhaar website technical error - Even after entering Aadhar number, captcha is not showing. Tried refresh button but it gave an error “Aadhaar website is facing some technical error”

Recommended option overlooked/ not understood - Consumers did not notice the "Recommended" highlight in the options and had not done KYC before.

Some users also mentioned that they were **unfamiliar with the KYC process** and had **never done it on any other platform before**, and mostly belonged to lower education group.

Aadhar website technical error
+ Faced issue with captcha

- **Aadhaar website technical error** - Even after entering Aadhar number, captcha is not showing. Tried refresh button but it gave an error “Aadhaar website is facing some technical error”

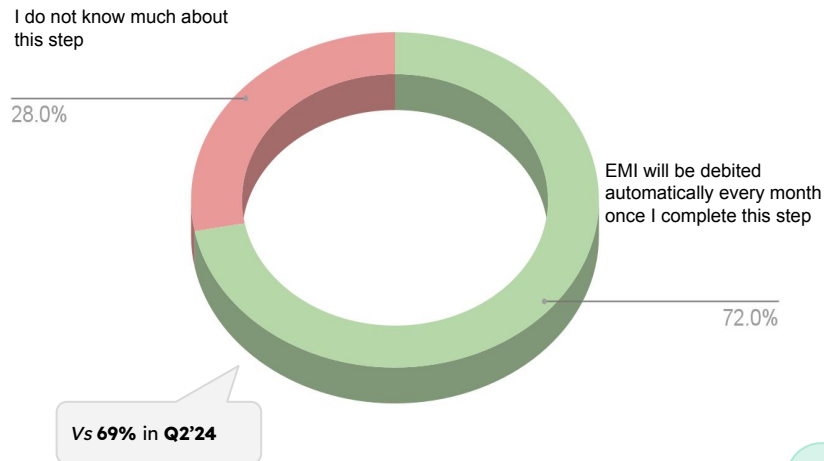

- **Recommended option overlooked/ not understood** - Consumers did not notice the “Recommended” highlight in the options and had not done KYC before.

NACH Drop Off survey findings

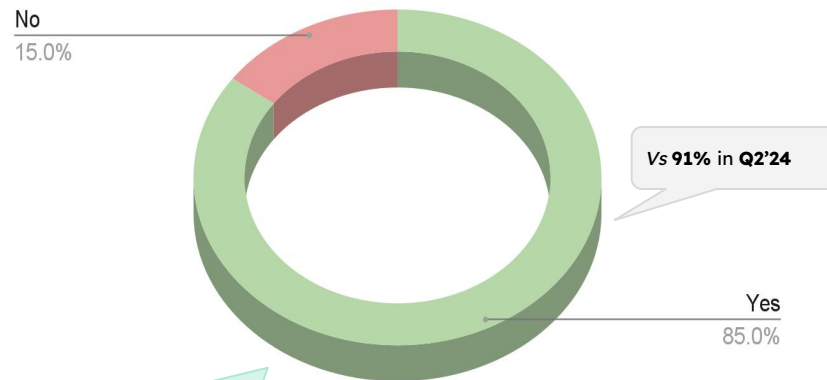

Oct-Dec'24

Understanding of Auto EMI debit feature (NACH) and future consideration

What do you understand from the Auto EMI debit feature? (690)

Will you consider taking loan from moneyview in future? (690)

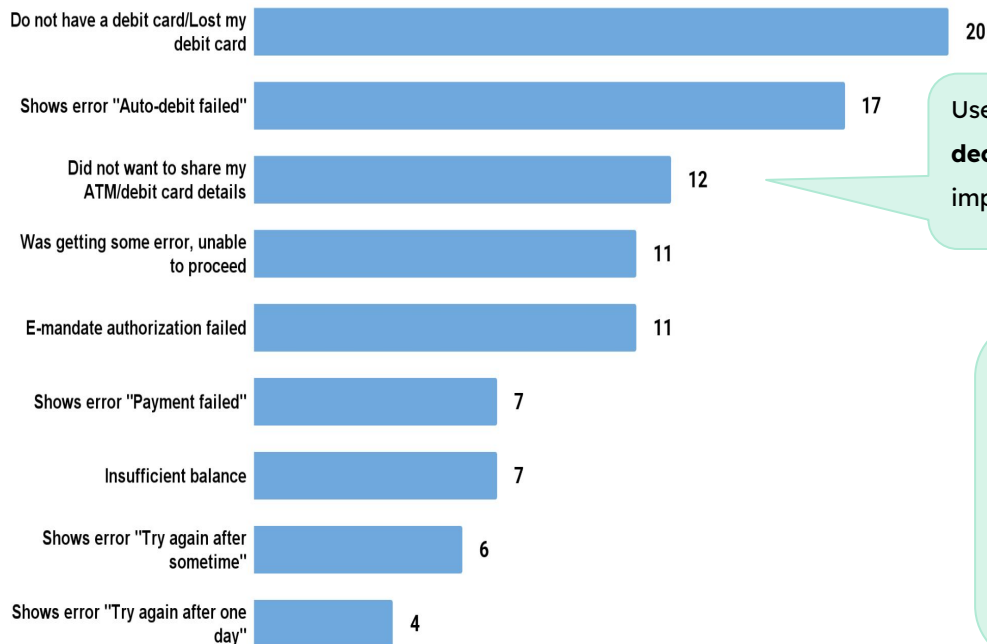

Reasons for decrease in loan consideration-

- Low loan amounts/ high ROI/ unsuitable EMI options
- Low intent and trust issues
- Better offers available from competitors

Issues faced at ATM/Debit Card

ATM/Debit Card

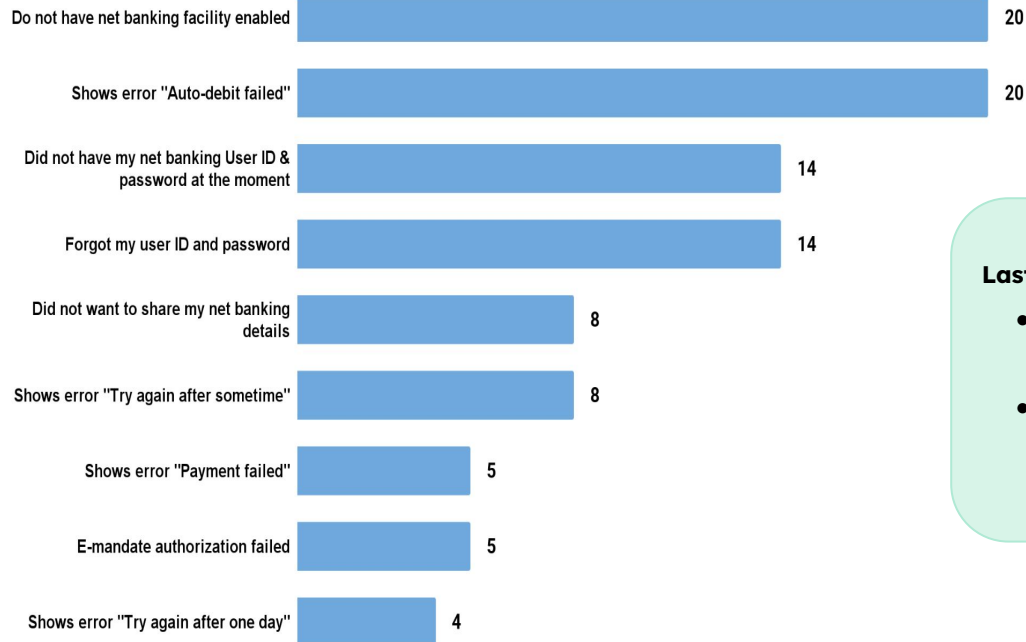

Users unwillingness to share ATM/Debit card details have **decreased from 14% to 12%** this quarter, possibly due to improved trust or clearer communication.

Last time, top issues faced at ATM/Debit card were-

- **Do not have debit card, or lost debit card (22%)**
- **Shows error "Auto-debit failed" without entering the credentials (14%)**

Issues faced at Net Banking

Net Banking

Overall
(432)

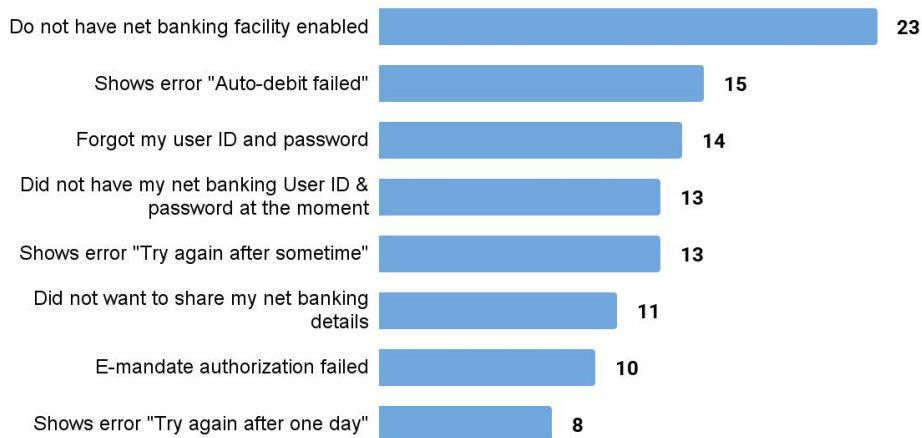

Last time, top issues faced at Net Banking were-

- **Did not have net banking facility enabled (23%)**
- **Shows error "Auto-debit failed" without entering the credentials (16%)**

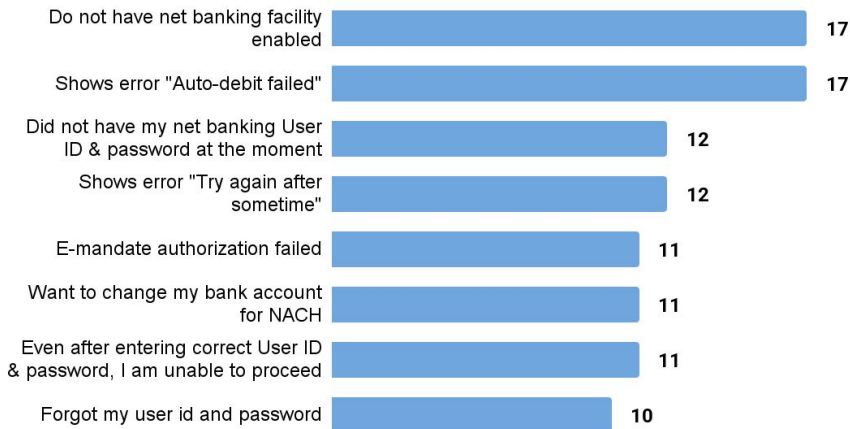

Issues specific to SBI

**Overall
(302)**

Issues specific to HDFC

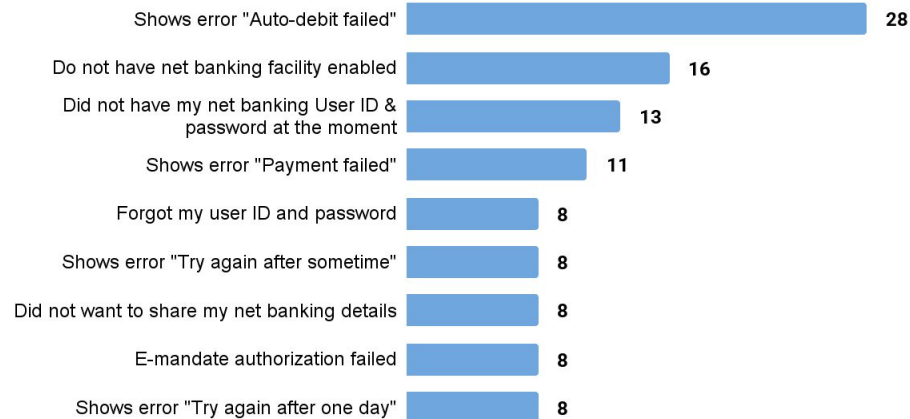

**Overall
(40)**

Issues specific to PNB

**Overall
(17)**

Issues specific to Kotak

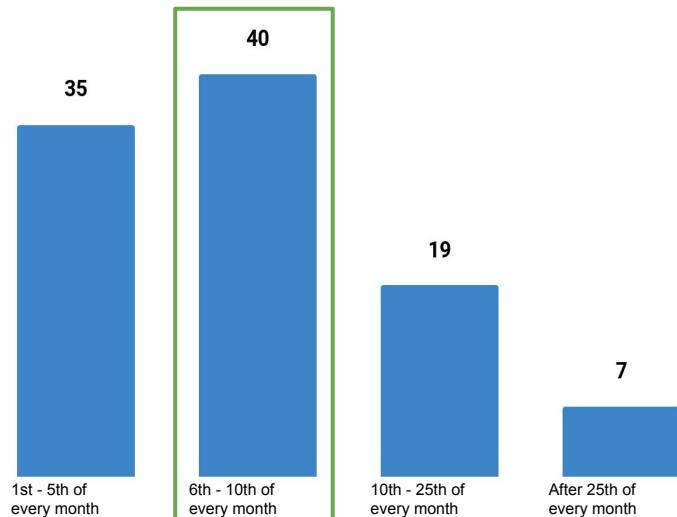

**Overall
(36)**

** Note: Percentages may vary due to the low base for HDFC, PNB, and Kotak.*

Salary crediting, EMI payment and flexibility

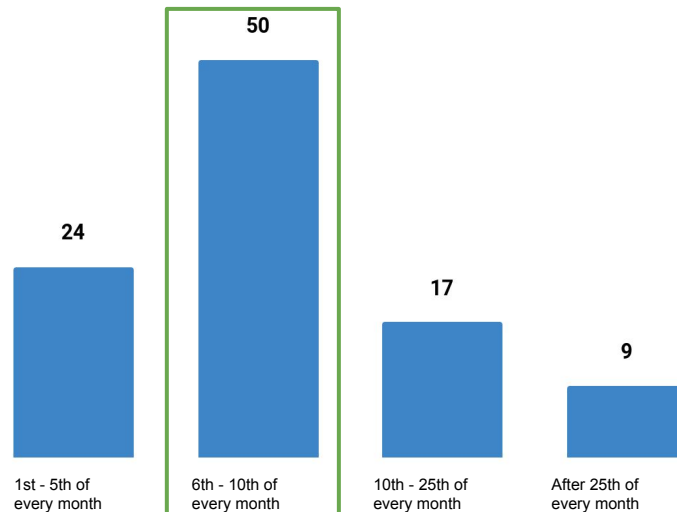

On which date of the month is your salary credited every month?

Base 384*- Overall base - NA's

Vs 33% in Q2'24

What would be a preferred date for you to pay the EMI?
Currently the EMI debit date is 5th of every month.

Base 384*- Overall base - NA's

Vs 43% in Q2'24

Qualitative survey findings

Unable to proceed after selecting ATM/ debit card option - On EMI Auto debit page, consumer tried clicking the ATM/Debit card option but the page did not load, redirecting him back to the options screen.

Want to change bank account - Consumers want to change their bank account due to issues such as a frozen salary account or an expired ATM card. However, they are overlooking the "Bank account cannot be changed later".

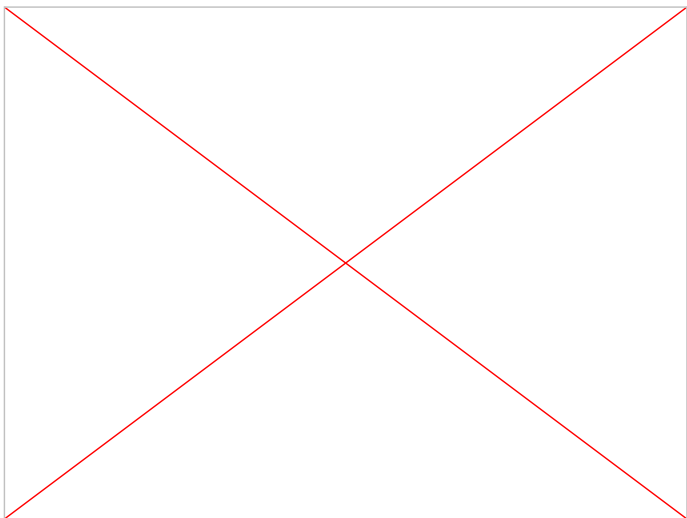

In online survey, out of 690 users, **17%** expressed **they to change their bank account**. Among them, **ATM/Debit card users: 19%**, **Net banking users: 13%**, and **both ATM & Net banking users: 18%**

Failed to set up Auto Debit due to OTP and Aadhaar issues - Consumer selected the ATM option but did not receive the OTP. Then he tried the Aadhaar option, which was rejected by the bank.

E-mandate end date issue and inaccessible FAQs - Consumer is worried why the end date is mentioned as 2027 and did not checked FAQs. Additionally, during the meeting, when tried to check the FAQ section, it failed to open.

E-mandate end date issue and inaccessible FAQs - Consumer is worried why the end date is mentioned as 2030 and did not checked FAQs. Additionally, during the meeting, when tried to check the FAQ section, it failed to open.

Want to change bank account - The user wanted to change his bank account because his salary account was frozen. However, he did not noticed "Bank account cannot be changed later".

All Stages

Issues with process, tech issues and other issues

Issues related to ROI/PF/Loan amount/Offer

Issue with process: Process was slow/ time consuming, a lot of information was being asked, did not understand the options, etc.

Tech issues: Faced some issue in the app, want to change bank account, etc.

Other app issues: Did not get the required customer support, faced issues with the promo code, could not see foreclosure details, etc.

Issues related to **ROI/ PF/ Loan amount/ Offer** are lesser as consumers reach **NACH** stage, compared to other stages

*There has been an increase in issues related to ROI/PF/loan amounts/Offer compared to the previous quarter, while issues concerning process, technical aspects, and other areas have decreased.

All stages

Customer concerns and recommendations

Stages	Issues	Suggestions
Personal Information Stage	• Users encountered difficulties in understanding form questions and options, • Faced issues related to monthly income calculations • Confused as I'm salaried but also have some additional source of income • PAN provided already in use • OTP and Application Continuation Issue	- Provide a separate field for additional income sources to avoid confusion. - Ensure a smoother OTP process and allow users to resume applications easily if interrupted.
Plan Selector Stage	• Consumers are not noticing the "See 3 more options" feature for additional tenure choices. • Customer dissatisfaction with offer (Loan amount/ROI/PF/ EMI option). • Majority of the consumers mentioned that they want to select tenure/ loan terms as per their own choice.	- Make the "See 3 more options" button bigger, bolder, or highlighted for better visibility. - Allow users to select their preferred tenure while displaying options up to the maximum tenure for better clarity and flexibility.
Form 3&4 Stage	• Confusion/ not sure as what to enter in the registration type/ nature of business/ industry type of my company, • Company's name not listed, • Forgot my company's or business's address / pin code, and • Lack of clarity in the process	- Provide a "Help me choose" option that explains different types with real-life examples. - Add a FAQ section or chatbot support within the form for instant assistance.

All stages

Customer concerns and recommendations

Stages	Issues	Suggestions
KYC Stage	• Issues with OTP, • Issue with server/getting error messages, • Faced issue with Aadhar number/Captcha, • Forgot my 6-digit PIN (for DigiLocker), • Aadhaar website technical error, and • Recommended option overlooked/ not understood	- Display possible reasons why OTP might not be received. - Show a clear error message with troubleshooting steps, like checking internet connection or retrying later. - Add PIN recovery options with a step-by-step reset guide. - Make recommended option more visible.
NACH Stage	• Want to change bank account for NACH • E-Mandate authorization failed/ end date issue, • Attempted to access the FAQ section, but it failed to open • Shows error "Payment failed", • Unable to proceed after clicking 'Enable Now'	- Ensure the FAQ page loads properly and provide clear reasons for failure and end date issues - Clearly highlight 'Bank Account Cannot Be Changed Later' information before users confirm their selection to avoid confusion later..

Thank you!
