

NACH

Did not try any mode (CAT A)

January 2024

Research Objective

To understand-

- Why customers did not proceed further and complete the NACH step?
- If they were unhappy with the offer, what kind of offer were they expecting? Are they getting better offer from somewhere else?
- What made them proceed further in the application if they did not like the offer?
- Auto EMI awareness/ usefulness

Methodology

Calling exercise

Target group / Sample size

Those who did not try any mode at NACH
CAT A

Sample size: 149

Probe: For which of these did you have a concern while checking the offer? (103)

Verbatim

Expectation for Loan amount/ROI/PF/Tenure

Amongst these- 61% have existing loans and in that 60% have an ongoing loans with banks

Amongst these- 55% have existing loans and in that 46% have loans with NBFCs and 38% have loans with banks

Loan amount- Most consumers are looking for a higher loan amount

"My expected amount is 1-2 lakhs; ROI is ok, I know private lenders charge high ROI"

"Loan amount could be more, I need at least 1 lakh Rs for my new business"

"Expected loan amt- 3.5 lakh but I got only 25k offer at MV"

I needed 2 lakhs loan for 1.5-2 years tenure, which I was not getting in MV. The given offer was less than 1 lakh and it is not suitable for me

ROI- Majority of the users are looking for a comparatively lower ROI than offered

"Loan amount is ok no concerns with that, but ROI is very high, I'm expecting 11-12% for a year"

"The amount was good it was around 2 lac ,but ROI should not be more than 15%p.a."

"ROI is comparatively high from IndusInd bank, Expected ROI- 9-10% maximum, in IndusInd bank I was charges 9% ROI in total"

PF- Consumers are willing to spend only a limited amount/ no amount on the processing fees

"Processing fees is also high, upto 500 is ok"

"Moneyview is charging extra amount for processing fees, while other apps are providing loan without processing fees"

"Deductions are very high, pf is high around 1600-1700, expected PF-200-300 Rs, ROI should be less"

Tenure- Most users are looking for a longer tenure than being offered

"15-16 months was offered but needed 2 years"

"I needed 2 lakhs loan for 1.5-2 years tenure."

"App displayed a tenure of 10 years for Rs 30,000 the consumer was very confused, couldn't view the ROI and Processing fees or how much EMI will be charged monthly and required proper information from the app."

Reasons for proceeding further amongst those who did not like the offer

You saw the offer before, did not like it and still proceeded further to reached NACH stage. What made you proceed further after seeing the offer earlier if you did not like it? (47*)

[Supernet] Reasons for proceeding further to NACH	67%
Expected a higher loan amount later	15%
Urgent requirement at that time/now not required	16%
Low intent- wanted to check further steps	14%
Exploring alternatives while applying at MV	10%
Applied at multiple companies to compare offers	6%
Seeking loan from other platforms as well	4%
Suggestion from friend/ advertisements/comms	8%
Proceeded further because liked the loan process of MV	4%
Proceeded further because liked the tenure	2%

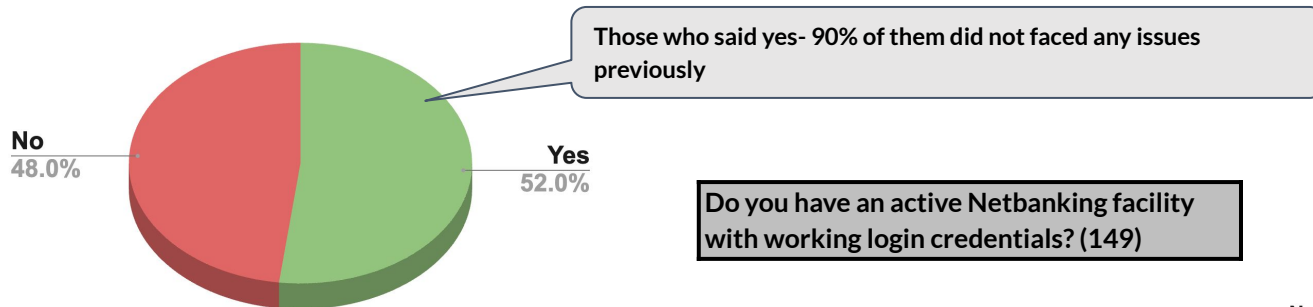

Remaining 33% simply wanted to proceed even though they did not like the offer; but couldn't continue as they faced some issue in the process.
